

## **2023 CACREP Program/Learner Outcomes: MS in CLINICAL MENTAL HEALTH COUNSELING**

- Clinical Mental Health Counseling (CMHC) graduates have a 75% pass rate on the National Clinical Mental Health Counseling Exam (NCMHCE). Exam pass rates are based on reports from the National Board of Certified Counselors on statistics for self-reported Capella alumni taking the NCMHCE in Spring 2023. Capella is notified of exam scores by the exam proctor only if the exam takers identify Capella as a recipient of their scores. Out of 4 CMHC learners that took the NCMHCE, 3 passed.
- Clinical Mental Health Counseling graduates have a 63% pass rate on the National Counselor Exam (NCE). Exam pass rates are based on reports from the National Board of Certified Counselors on statistics for self-reported Capella alumni taking the NCE in Fall 2022 and Spring 2023. Capella is notified of exam scores by the exam proctor only if the exam takers identify Capella as a recipient of their scores. Out of 143 CMHC graduates who took the NCE, 90 passed.
- 454 learners graduated from the Clinical Mental Health Counseling program between 2022-2023 academic year.
- The completion rate for learners from the Clinical Mental Health Counseling program is 56%. Completion rate is the percentage 2016-2017 and 2017-2018 cohorts (learners who register for a second course in the year specified) who finished their degree within 24 quarters. Within this group, out of 1439 Clinical Mental Health Counseling learners, 803 graduated within 24 quarters.
- Capella does not offer job placement assistance. Data for job placement were gathered from a survey distributed to alumni who graduated from Capella's CACREP-accredited programs in 2022. The response rate of less than 10 percent of MS in Clinical Mental Health Counseling alumni is not sufficient to draw meaningful conclusions.
