---

[1] Cohort definition changed in 2022: successful completion of MFT-R5821 between July 1st-June 30th.

[2] Graduation Rate is the program's Advertised Length of Completion, which is how long the program is designed to complete as written.

[3] Job Placement Rate by cohort is defined as the percentage of graduates from the cohort year listed that are employed utilizing skills learned in the COAMFTE accredited program. Job Placement Rates are calculated using the following self-reported data:
- # of graduates that reported their employment status to the program
- # of graduates, who entered in the year listed, that are employed utilizing skills learned in the COAMFTE accredited program

[4] Licensure rate is the percentage of graduates from the cohort year that have achieved ANY level of MFT licensure. For Master's programs only, COAMFTE has established a benchmark of 70% licensure rate for each cohort. This program has identified a reporting benchmark for licensure rate as 2 years post-graduation.
