

Acknowledgement Agreement

I understand the Information Assurance and Cybersecurity program is designed and recommended for individuals possessing one or more of the following:

A Bachelor's or Master's degree in the Computing Sciences or a related field

OR

Two or more years of professional experience in Information Technology and Security that includes experience with scripting languages and programming tools such as Python

OR

One or more of the following professional endorsements:

- ISC2 such as CISSP or HCSSP
- EC- Council such as CEH or CHFI
- ISACA such as CISA, CISM or CRISC
- SANS such as GSEC, GPEN, GCIH or GCFA

Applicants lacking the disciplinary depth and breadth of Information Technology or Security should consider adding professional endorsements noted above into their portfolio to ready themselves for the rigors of the program.
