Find the course you want and apply now. For questions, contact an enrollment specialist or call 1.877.295.6791.

Please note:
- Financial aid is not available for single course learners. Contact an enrollment specialist for more information on payment plans and discounts.
- All undergraduate courses require a completed high school diploma or GED.
- Single course learners may apply credits from no more than three Capella courses toward a subsequent degree or certificate program.

SCHOOL OF UNDERGRADUATE STUDIES: BUSINESS COURSES

BUS3061 - Fundamentals of Accounting (3 quarter credits).
This course is an introduction to the accounting function in modern business organizations. Learners define accounting terminology and explore its application to accounting principles. Learners also apply accounting cycle strategies to business financial events and prepare financial statements from accounting system data.
Cost $1,230

BUS3062 - Fundamentals of Finance (3 quarter credits).
In this course, learners gain and apply finance basics including the time value of money concepts, stock and bond valuation techniques, and capital budgeting processes. Learners also demonstrate ways the relationship of domestic and global financial environments affect financial markets.
Cost $1,230

BUS4060 - Financial Accounting Principles (6 quarter credits).
This course focuses on financial accounting principles and ways accounting information is used to assess an organization’s financial performance. Learners evaluate the relationship between business events and accounting systems and analyze an organization’s financial structure.
Cost $2,460

BUS4061 - Managerial Accounting Principles (6 quarter credits).
In this course, learners identify the role of accounting as it relates to managing an organization, then analyze accounting systems and financial statements. Learners also apply sound budgeting and time value of money principles from a managerial perspective.
Cost $2,460

BUS4064 - Cost Accounting for Planning and Control (6 quarter credits).
This course emphasizes the role of cost and managerial accounting in the planning, control, and performance evaluation of business, government, and nonprofit organizations. Learners examine the theory and practice of business control and identify strategic aspects within business decision cycles.
Cost $2,460

BUS4065 - Income Tax Concepts and Strategies (6 quarter credits).
In this course, learners build and strengthen their knowledge of fundamental concepts of individual, partnership, and corporate income taxation and tax-related transactions. Learners examine events that affect tax decisions, apply tax guidelines, and analyze tax forms.
Cost $2,460

BUS4066 - Contemporary Auditing: An Ethical Perspective (6 quarter credits).
This course presents the nature and economic purpose of auditing by emphasizing the philosophy and current environment of the auditing profession. Learners develop and demonstrate their understanding of the stages and issues involved in planning and conducting a financial audit on various transaction cycles. Learners also examine the code of professional ethics as defined by the American Institute Certified Public Accountants (AICPA) and its influence on the auditing process and finance decisions.
Cost $2,460

BUS4063 - Advanced Financial Accounting Topics and Trends (6 quarter credits).
In this course, learners analyze and apply advanced financial accounting concepts and consolidated financial statement information. Learners also evaluate the influence of global money markets and demonstrate knowledge of partnership and corporate accounting issues and governmental entities.
Cost $2,460

*DISCLAIMER: Course availability and cost are subject to change. View the online Capella University Catalog for the most up-to-date individual courses and cost.
BUS4062 - Intermediate Financial Accounting Topics and Trends (6 quarter credits). Learners in this course develop and exercise a working knowledge of financial accounting theory and practice using Generally Accepted Accounting Principles (GAAP) and Financial Accounting Standards Board (FASB) pronouncements. Learners acquire financial reporting skills and apply financial statement conceptual frameworks to prepare financial statements.
Cost $2,460

BUS4110 - Forensic Accounting (3 quarter credits). In this course, learners examine the field and practice of forensic accounting and expose accounting crimes such as fraudulent financial reporting, money laundering, and cybercrime. Learners also gain an understanding of courtroom procedures and analyze expert testimony, litigation support, commercial damages, and business valuation.
Cost $1,230

BUS4111 - Ethics in Accounting (3 quarter credits). This course covers the revised AICPA Code of Professional Conduct that governs the behavior of accountants. Learners analyze and apply the conceptual framework and the principles and rules within the code.
Cost $1,230

BUS4112 - Accounting Research (3 quarter credits). Learners in this course develop and practice a working knowledge of how to conduct accounting, auditing, and tax research. Learners use the FASB Accounting Standards Codification; accounting, auditing, and tax databases; AICPA, PCAOB, and IRS libraries; and other online tools to conduct research.
Cost $1,230

BUS4113 - International Accounting (3 quarter credits). This course covers the International Accounting Standards Board (IASB) pronouncements, with particular focus on International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), and Standard Interpretation Committee (SIC) interpretations. Learners identify key differences between U.S. Generally Accepted Accounting Principles (GAAP) and IFRS, and demonstrate knowledge of the impact on financial statement preparation and presentation.
Cost $1,230

BUS4114 - Government and Nonprofit Accounting (3 quarter credits). In this course, learners build an understanding of the accounting methodology and reporting requirements put in place by the Government Accounting Standards Board (GASB) and the Financial Accounting Standards Board (FASB) for governments and nonprofit organizations. Learners also examine A-133 reporting requirements and gain the knowledge and skills necessary to prepare Form 990.
Cost $1,230

BUS4115 - Business Law in Accounting (6 quarter credits). Learners in this course acquire and demonstrate a working knowledge of the Uniform Commercial Code. Learners also investigate the CPA’s common law duties and liability to clients and third parties, federal securities regulation and liability of CPAs under federal securities laws, and debtor-creditor relationships. Other topics include the federal regulation of business such as antitrust, copyright, patents, money laundering, labor, employment, and the Employee Retirement Income Security Act (ERISA).
Cost $2,460

SCHOOL OF UNDERGRADUATE STUDIES:
GENERAL EDUCATION COURSES

MAT1050 - College Algebra (6 quarter credits). Learners in this course evaluate and perform linear, exponential, logarithmic, and other mathematical functions that include algebraic, graphic, and numeric properties. Learners then apply these concepts to the social and natural sciences, business, and everyday life.
Cost $2,124

MAT2001 - Statistical Reasoning (6 quarter credits). This course introduces fundamental concepts of elementary statistics, including descriptive statistics, methods of counting, probability distributions, approximations, estimation, and hypothesis testing. Learners use these concepts to apply and interpret statistical results.
Cost $2,124

BIO1000 - Human Biology (6 quarter credits). In this course, learners develop and demonstrate their knowledge of fundamental biological principles as they relate to human beings. Course topics include the molecular and cellular basis of life, genetics, organ systems, and the impact of nutrition and exercise on human health. The course also includes lab experience.
Cost $2,124

ECO1050 - Microeconomics (6 quarter credits). Learners in this course examine the optimizing behavior of individual consumers and firms, the coordination of individual decisions through markets, and the evaluation of market outcomes in terms of efficiency and fairness. Learners apply microeconomic principles to real-world situations.
Cost $2,124

ECO1051 - Introduction to Macroeconomics (6 quarter credits). This course provides an introduction to fundamental macroeconomics topics, including national income analysis, unemployment and price stability, the business cycle, monetary and fiscal policy, and international trade. Learners study the behaviors of whole systems and economies and apply macroeconomic principles of economic theory to real-world situations.
Cost $2,124

*DISCLAIMER: Course availability and cost are subject to change. View the online Capella University Catalog for the most up-to-date individual courses and cost.
SOC1000 - Introduction to Human Society (6 quarter credits).
In this course, learners use sociological theory and concepts to explore everyday life and gain knowledge of the ways individuals and society as a whole understand their collective social realities. As they examine cultural ideologies, learners are introduced to ways of objectively examining their personal perspectives on social issues.
Cost $2,124

ENG3300 - Business and Technical Writing (6 quarter credits).
In this course, learners write common business genres for a variety of purposes and audiences. Learners focus on principles of ethical, group, and supervisory written communication in the 21st century workplace.
Cost $2,460

ART2000 - Art History Survey (6 quarter credits).
In this course, learners survey art of the Western world from prehistoric to modern times. Learners explore museum and gallery art exhibits, analyze buildings and architecture, and examine art in everyday life.
Cost $2,124

COM2000 - Intercultural Communication (6 quarter credits).
Learners in this course demonstrate and apply knowledge of cultural differences associated with values, norms, social interaction, and code systems. Learners also analyze the effects those differences have on inter- and cross-cultural communication.
Cost $2,124

PHY1000 - Introduction to Astronomy (6 quarter credits).
Learners in this course explore the major concepts associated with understanding the universe and why objects in the universe behave the way they do. In particular, learners examine the history of astronomy and science; the concepts of modern astronomy and cosmology; the earth and the solar system; the sun, stars, and stellar evolution; galaxies and similar objects; and the Big Bang Theory and the origin of the universe. Learners also consider life on earth and the probability of life elsewhere in the universe.
Cost $2,124

HUM1000 - Introduction to the Humanities (6 quarter credits).
This course focuses on a variety of humanities-associated fields, including arts, philosophy, and religion. Learners develop and demonstrate an understanding of the uniqueness and interrelatedness of these fields. Learners also examine the ways the humanities significantly shape the cultures in which they are found and assess the cultural values and vision of the human condition.
Cost $2,124

SCHOOL OF UNDERGRADUATE STUDIES:
PSYCHOLOGY COURSES

PSYC1000 - Introduction to Psychology (6 quarter credits).
This course is an introduction to the basic principles of psychology and the scientific methods that psychologists employ. Learners build their understanding of the brain, learning and memory, personality, social influence, child and lifespan development, and psychopathology and apply concepts they’ve learned to everyday situations.
Cost $2,142

PSYC3110 - Abnormal Psychology (6 quarter credits).
The focus of this course is abnormal behavior, which learners investigate using the framework of mental pathology. Learners evaluate scientific, empirically based analyses of mental disorders and deviant behavior. Learners also examine the range of psychological disorders and assess the disorders’ biological, psychological, and social consequences. In addition, learners demonstrate their knowledge of abnormal psychology treatment methods.
Cost $2,466

PSYC3210 - Human Life Development (6 quarter credits).
This course is a comprehensive survey of classical and contemporary theory and research related to physical, cognitive, emotional, and social development throughout the human lifespan. Learners analyze the methods used to study human development and apply stage and non-stage human development theories. Learners also analyze the interaction between heredity and the environment; assess milestones of physical, cognitive, and emotional growth; and evaluate personal issues associated with human development and aging.
Cost $2,466

PSYC4600 - Research Methods (6 quarter credits).
Learners in this course demonstrate their knowledge of fundamental research methods and tools used in psychology. Learners use research methods and designs to show how the scientific method can be applied to the study of human behavior and thought, including ethical considerations for conducting research with human participants.
Cost $2,466
