

VIDEO TRANSCRIPT

**BSN, MSN, and for the first time at Capella, DNP.  
All with FlexPath.**

**0:06** No one can argue the impact of nurses. Nurses with advanced degrees can have a seat at the table when it comes to leading the healthcare change.

**0:16** It's difficult for nurses to arrange a schedule around a traditional educational model, where they have to sit in a class to complete their degree. Nurses today need the flexibility to study and learn when, where, and how it's convenient for them.

**0:31** Capella University is reshaping the way we deliver education to nurses; you no longer need to fit your life into the mold of traditional education. With FlexPath, you set your own deadlines, control your costs, and leverage your experience to move faster.

**0:31** Nurses can bring their experience into the course room and also apply what they learn in the course room to their jobs immediately. Capella is helping nurses keep up with the constant changes in health care. So they can better themselves, the lives of their patients, and their organizations.

**1:03** It aligns with nurses. It aligns with our schedules, it aligns with our life. FlexPath really opens up opportunities for nurses who want to grow as leaders.

**1:13** BSN, MSN, and for the first time ever at Capella, DNP--all with FlexPath.
