Bachelor of Science - Psychology Program Overview

People pursuing the undergrad in psychology here at Capella are people that want to gain a better understanding of the mind and why people do what they do. Capella is really focused on the learner's success. We've designed our degree paths around giving you the information you need to actually take on this career. All of your classes are going to be information that's going to directly associate with your future occupation, and give you the information and knowledge you need to be successful at that.

The undergrad Psychology Program can be pursued in multiple formats. We have our GUIDEDPATH and we have our FLEXPATH. If you're looking for structure, someone to hold you accountable, you want to learn for other learners, our guided path is a great way to do that, 100% online. If you're someone that you feel like you can move very quickly through the material, hold your own self accountable, set your own deadlines and due dates, maybe FLEXPATH is a better option for you. Either way, it's 100% online, and it's whatever works best for you.

Support at Capella is super important to us. Even from your first call, you're connected with an enrollment counselor. We talk about your professional and educational needs. We then set you up with someone that's really focused on your academic plan, making sure you're taking the classes you need to be successful. We want to make sure that you're pursuing a great fit for you, and it's going to align you to your ultimate goals. **(James Calvin)** *Enrollment Counselor*
